

CV Mrs Jenny Shorer-Wheeler (Koromandel)

I got my first dog, a Labrador, when I was 15. I have always wanted to show, and actually started by showing a pet rabbit before I was allowed my dog. By 18 I was thoroughly bitten by the bug and had 2 Labs and an American Cocker. After graduating from Uni and leaving the family home, I had my American Cocker and her daughter, & then a Malamute joined our lives. Since then I have become much more involved with the Spitz breeds, and currently share the house with two Mals, two Buhund's, two children and a cat. I have bred a Champion Mal and 4 others who have CC's or RCC's, both my Buhund's are Champions and my first litter of Buhund's begin their show careers in November, two here in the UK with friends and one over in Canada. My affix relates to an area of New Zealand, my Aunt moved to New Zealand as a young woman and she is a successful exhibitor of beef cattle over there, so it was inspired by her!
